R. L. Polk & Co., Publishers

33 BASS BLOCK, FORT WAYNE

Entered according to Act of Congress, in the year 1906, by R. L. POLK & Co., in the office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The thirty-third annual edition of the City Directory, with such improvements as have been suggested during the past year, is herewith presented to the public with full confidence in its merits and its value as a reliable work of reference. Regarding Fort Wayne its citizens do not need to be told of its advantages, for none fail to appreciate them.

That Fort Wayne is growing in population and wealth is indicated by the increased numbers of busy, prosperous people met with in stores, offices and public places. That the city is growing at a wonderful rate is evidenced by the fact of the large number of new houses and flats that have been erected during the past year. In all directions in the suburbs and new additions to the city, we find comfortable homes are being built. It is next to impossible to rent a house in Fort Wayne, the boarding houses are overflowing and the hotels have their capacity tested every week.

An estimate of the population of a city is something necessarily conjoined upon the directory publishers, and the figures given to the public must be veracious and be arrived at by most careful calculations. This volume contains 32,334 individual names, which multiplied by 2, the number which has hitherto been found to correctly embrace the names of women and children not included in the directory, would indicate a total population of 64,668. These figures are veracious and need neither defense nor explanation, yet as the population of the city is sometimes questioned, it may be proper to add that any estimate based upon other systems than that employed in the preparation of a city directory, must fall short of its standard of accuracy because all others are based upon a single enumeration of the inhabitants.

The directory system, on the other hand, provides that all names shall be taken both at business places and residences, and always discloses many names which could not have been obtained by inquiries made at hotel, boarding or rooming houses. Then, too, the directory canvass is not confined to the actual geographical limits of the city, but

embraces such adjoining territory as may be for all practical purposes considered a portion of the city itself.

To the business men of Fort Wayne who, by their patronage and courtesy in furnishing information, have helped to make the directory a success the publishers return their sincere thanks.

DIRECTORY

BORROWERS

We receive many complaints from our patrons to the effect that they are bothered so much by BORROWERS. These parties are not the private citizens nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

The Reed School

FOR NERVOUS AND BACKWARD CHILDREN

AND FOR THE CORRECTION OF DEFECTIVE SPEECH.

The School makes a favorable impression on both Physician and Parent,

Because:—

The "family physician" notes the skillful, careful use of the latest means of bringing about the greatest possible mental and physical development of children who require far more individual care and discriminating guidance than can possibly be given in the ordinary public or private school.

The "family physician" notes that the Reed School has secured the unreserved approval of all the leading specialists in the care of children in health and disease who are personally familiar with its facilities, its methods and the results which it attains.

The "family physician" notes that this school is not for the exploitation of any "fad" in child training, but is open to the acceptance of the latest developments in its line of work which have received scientific approval.

Because:—

The parent notes the truly "homelike" atmosphere which is present, as indicated by the entire absence of anything "institutional."

The parent notes the evident pleasure which the Reed School pupils take in their work.

The parent notes the many unmistakable tokens of the exercise of the tenderest care in the proper development, mentally and physically, of every pupil.

The parent notes the school's proud record, showing the arousing of dormant faculties, the correction of misdirected energies, and in not a few cases the fitting of children to attend regular schools who had formerly been rejected by such schools, on the ground that it was impossible for such children to be taught.

A leading feature of the work is the cure of **stammering** and other forms of defective speech. This work is by no means confined to the nervous and backward, as the Reed method for the cure of stammering is favorably known throughout the country and attracts pupils of all ages, including professional and business men. The premises utilized and the teachers employed are entirely separate from those connected with the school for nervous and backward children.

DIRECTORY

BORROWERS

We receive many complaints from our patrons to the effect that they are bothered so much by BORROWERS. These parties are not the private citizens nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

THE DIRECTORY *LIBRARY*

Our office, 33 Bass Block, is kept replenished with Directories of all the principal cities and states in this country and Canada.

By our exchange system we are enabled to place a copy of the Fort Wayne Directory on file in the principal directory libraries of the United States and Canada, and our patrons may feel just pride in the appearance of our Directory alongside and in comparison with those of other leading cities.
